5. Find Patients screen

When you click the Find Patients icon on the main screen, Find Patients screen will show up.

In the top right corner you will see a magnifying glass icon. If you click on it, a text box to find a patient will appear.

Type a name and press search (a magnifying glass icon) on your keyboard. The launching screen displays a progress bar while your device is searching for results. When the searching is done, those results will appear on the screen. You can now download information about patient by checking check box. If you do so, the information will be available offline and you will be now able to see data about this patient, after returning to Find Patients screen by clicking return icon in the top left corner of the screen.
